

BILLING CODE: 4151-05

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Committee on Vital and Health Statistics: Hearing

Pursuant to the Federal Advisory Committee Act, the Department of Health and Human Services (HHS) announces the following advisory committee hearing.

NAME: National Committee on Vital and Health Statistics (NCVHS),
Subcommittee on Standards.

DATE AND TIMES:

Wednesday, December 12, 2018: 9 a.m. – 5 p.m. (EST)

Thursday, December 13, 2018: 9 a.m. – 1 p.m. (EST)

PLACE:

Omni Shoreham Hotel
2500 Calvert Street, NW
Washington, DC, 20008

STATUS: Open. There will be a public comment period during the final 15 minutes of both days of the meeting.

PURPOSE:

Health Insurance Portability and Accountability Act (HIPAA) legislation from 1996, as amended¹, directed the Secretary of Health and Human Services (HHS) to publish regulations adopting standards, code sets and identifiers to support the exchange of electronic health information between covered entities. The standards are for retail pharmacy and medical transactions.

In its capacity to advise the HHS Secretary on health data, statistics, privacy, national health information policy, and HIPAA, NCVHS is in the final stages of the development of a standards update and adoption roadmap, referred to as the Predictability Roadmap. The development of the Predictability Roadmap has been a year and a half long process, achieved in collaboration with industry stakeholders and the standards development organizations (SDOs). The overall vision for the Predictability Roadmap is that:

- HIPAA covered entities and their business associates use the adopted standards and operating rules in a consistent way to exchange health information and conduct business; and
- Standards are reliably updated and adopted so that covered entities know when they will need to, and/or be able to update systems and business processes.

To accomplish this goal, NCVHS conducted several information gathering activities and stakeholder engagement meetings and workshops: in June 2017 the Subcommittee on Standards met with each of the standards development organizations (SDOs) to learn about their individual maintenance processes; in August 2017 the Subcommittee held a

¹ Along with Section 1104 (c) of the Patient Protection and Affordable Care Act (ACA) of 2010.

visioning exercise with the SDOs and Designated Standards Maintenance Organization (DSMO); and in May 2018, the Subcommittee conducted a CIO Forum with 21 health care technology experts and senior corporate officers representing a cross-section of organizations that were end-users of the HIPAA and ACA administrative standards. The goal of this Forum was to elicit input for improving the standards development, update and adoption process, and address barriers to use of those standards. Based on this work, the Subcommittee on Standards developed a draft Predictability Roadmap comprised of 23 recommendations organized under three major focus areas. The draft recommendations were presented at the September 13-14 NCVHS meeting and are posted on the website at: <https://ncvhs.hhs.gov/wp-content/uploads/2018/09/Presentation-NCVHS-Draft-Predictability-Roadmap-Recs-Coussoule-and-Goss.pdf>.

The purpose of this Subcommittee hearing is to obtain input from stakeholders on the draft recommendations designed to improve the processes for updating, adopting and using standards and operating rules, and developing a formal Predictability Roadmap. The Subcommittee will use the feedback received at this hearing to finalize recommendations to the Secretary of HHS.

Individuals and representatives of organizations interested in submitting written testimony are invited to respond to the following questions:

In general,

1. Would these recommendations as a whole improve the predictability of the adoption of administrative standards and operating rules?
2. What additional recommendations are critical to achieve predictability?

And specifically,

3. What is the value proposition of each recommendation and what improvements to the current state do you believe will arise from each recommendation/group of similar recommendations?
4. Are there potential unintended consequences? What are those and how can they be mitigated with modifications to the recommendations?

The questions outlined above can be used to guide written submissions to the Subcommittee. Written submissions should be sent electronically to NCVHSmal@cdc.gov with “Predictability Roadmap” in the subject line no later than November 20, 2018.

The times and topics for this meeting are subject to change. Please refer to the posted agenda at www.ncvhs.hhs.gov for any updates.

CONTACT PERSONS FOR MORE INFORMATION:

Substantive program information may be obtained from Rebecca Hines, MHS, Executive Secretary, NCVHS, National Center for Health Statistics, Centers for Disease Control and Prevention, 3311 Toledo Road, Hyattsville, Maryland 20782, telephone (301) 458-4715. Information pertaining to meeting content may be obtained from Lorraine Doo, MSW, MPH, (410) 786-6597; and/or Geanelle G. Herring, MSW, (410) 786-4466; Centers for Medicare & Medicaid Services, Office of Information Technology, Division of National Standards, 7500 Security Boulevard, Baltimore, Maryland, 21244. Summaries of meetings and a roster of Committee members are available on the NCVHS

website: www.ncvhs.hhs.gov where further information including an agenda and instructions to access the live audio broadcast of the meeting will be posted.

Should you require reasonable accommodation, please contact the CDC Office of Equal Employment Opportunity on (770) 488-3210 as soon as possible.

Sharon Arnold,
Associate Deputy Assistant Secretary for Planning and
Evaluation, Science and Data Policy,
Office of the Assistant Secretary for Planning and
Evaluation.
